Phone: +918072417756 | Github: <https://github.com/swetha200620>

SKILLS

- **Programming Languages:** Java, Python, JavaScript
- **Web Technologies:** HTML, CSS, Bootstrap, React.js
- **Core Concepts:** OOP, Collections Framework, Multithreading, Blockchain Fundamentals, Cloud Fundamentals
- **Database:** MySQL
- **Version Control:** Git, GitHub
- **Strengths:** Quicklearner, Problem-solving and debugging

EDUCATION

Vels Institute of Science, Technology & Advanced Studies BCA-BlockChain Technology, CGPA: 7.410	2023-2026
GuruNanak Matriculation hr School, Chennai Computer Application, Percentage: 53%	2022-2023

INTERNSHIP

ElDato's Technologies private Limited Front-end Development Intern	12-06-2025 - 27-06-2025
---	--------------------------------

- Built responsive web pages using HTML and CSS for seamless cross-device user experience. Developed interactive websites with JavaScript for dynamic content and functionality.
- Used Bootstrap to create mobile-first, visually appealing web layouts, reducing development time

Inspire Software Solutions Software Development Intern	05-01-2026 - 05-04-2026
---	--------------------------------

- Developed a real-time multi-class image classification system using CNN and YOLOv8.
- Built a web interface with HTML, CSS, and JavaScript for image upload and prediction display.
- Applied preprocessing techniques (resizing, normalization, augmentation) to improve model performance.
- Integrated a pre-trained YOLOv8 model for scalable deployment across multiple domains.

PROJECTS

Multi-Class Image Classification Platform using CNN

Key Skills: Python, YOLOv8, HTML, CSS, JavaScript, Computer Vision, Image Processing, OpenCV

- Multi-Class Object Detection & Counting Platform (YOLOv8)
- Developed a real-time object detection and counting system using YOLOv8 for identifying and tracking multiple object categories.
- Built an interactive web interface for image upload, object detection, and prediction visualization.
- Implemented image preprocessing and integrated automated object counting for improved accuracy and performance.
- Designed the platform for scalable real-world applications in healthcare, retail, agriculture, and security

NexMart — Full-Stack E-Commerce Platform

KeySkills: React.js, JavaScript , HTML5, CSS3, Node.js, Express.js, MySQL, REST API Development, JWT Authentication, Database Design, Full-Stack Development, Responsive Web Design, Git & GitHub.

- Developed an Amazon-inspired e-commerce platform with features including product catalog, cart, wishlist, checkout, order tracking, and admin dashboard.
- Implemented JWT authentication, role-based access control, secure password hashing, and protected REST APIs.
- Designed and managed a normalized MySQL database with product, user, order, payment, and review management.
- Built advanced search and filtering, responsive UI, sales analytics dashboard, inventory management, and order processing features.
- Enhanced user experience with dark/light mode, live search, toast notifications, product recommendations, and mobile-first responsive design.

Smart Productivity Dashboard (React To-Do Application)

KeySkills: React.js, JavaScript, HTML, CSS, Local Storage, State Management

- Developed a feature-rich task management dashboard using React, JavaScript, HTML, and CSS.
- Implemented task creation, categories, priority levels, search, filtering, and progress tracking.
- Integrated Local Storage for persistent task management and added Dark/Light mode functionality.
- Designed a responsive and interactive UI to enhance productivity and user experience.

ADDITIONAL INFORMATION

- Demonstrated strong problem-solving and analytical skills by optimized performance
- National Level Workshop on Cyber Security
- Java Full-Stack Development Course on Oranium Tech Lead IT Academy

PERSONAL STATEMENT

I am a Motivated and detail-oriented Web Developer with a strong foundation in designing scalable, efficient, and user-centric web solutions. Skilled in developing responsive applications and translating technical requirements into high-quality digital experiences. Passionate about creating innovative solutions, continuously learning emerging technologies, and contributing to impactful projects in a collaborative and growth-driven environment. Eager to leverage technical expertise and problem-solving abilities to drive organizational success while advancing professional growth.
